

EXTRUSION LINES AND DOWNSTREAM EQUIPMENT

PROVEN IN PRACTICE

Our machines are already successfully in use in MAINCOR's own production and prove their performance every day.

PILOT PRODUCTION

Possibility to conduct test runs and series production at MAINCOR – including pre-acceptance under series conditions.

PLUG AND PLAY

Maximum Ease of Maintenance: All connections are pluggable, ensuring that maintenance and replacement can be carried out quickly and effortlessly. Maximum efficiency with minimal effort!

MAXIMUM ENERGY EFFICIENCY

Our machines are designed for low energy consumption – saving operating costs and protecting the environment.

*Technological Progress from a Single Source
- Complete systems with combined control*
